

CF-4 Diesel Engine Oil

【Performance features 】

- Excellent high-temperature detergent, which can prevent deposit on piston rings and keep the cleanness of the engines;
- Good oxidation stability and thermal stability which can effectively control the viscosity increase of the oils and the generation of deposits;
- Better anti-wear than that of CD-grade oil, which can prolong the engine's service life
- Low volatility which can save engine oil

【Application 】

This product can be applied in the direct-injection, inter-cooled turbo-charged, and heavy-duty diesel engines such as Cummins, Volvo and Mack. It is also appropriate for lubricating of engineering machines, mining equipments and power generation assemblies that are required to use API CF-4-grade oil.

【Products 】

5W/30, 5W/40, 10W/30, 10W/40, 15W/40, 15W/50 、 20W/50, 20W/60, 40, 50 and 60.

【Recommended Drain interval 】

20,000 km.
